

Shaheed Durga Mall Government Post Graduate College Doiwala, Dehradun

Department of English

Programme Outcome

- Students are able to identify, analyze, interpret and describe the critical ideas, values and themes that appear in literary and cultural texts and understand the way these ideas, values and themes inform and impact culture and society, both now and in the past.
- Studying literature has two aspects, one of simple enjoyment and appreciation, the other of analysis and exact description. To enter and enjoy this new world, to love good book for their own sake, is the chief thing; to analyze and explain them is a less joyous but still an important matter.
- The study of literature has one definite object, to know men. Now man is ever a dual creature; he has an outward and an inner nature; he is not only a doer of deeds but a dreamer of dreams; and to know him, the man of any age, we must search deeper than his history. History records his deeds, his outward acts largely; but every great act springs from an ideal, and to understand this we must read his literature, where we find his ideals recorded.
