Policy Document of Green Campus

A Green Campus is a place where environmentally friendly practices and education combine to promote sustainable development. The concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable measures to fulfil the environmental, social and economic needs of the mankind. The institutes of higher education are the center where the citizens of the country are shaped and hence, they are the best places where the values of green campus and environment protection can be inculcated among the young students. SDM Government P.G. College Doiwala (Dehradun) has always remained in the forefront wherever the issue of eco-friendly practices is concerned. It is ever vigilant to protect the environment and to promote green initiatives. In order to develop a Green Campus, the policy of the college would be:

- Awareness creation about environmental issues among students and employees by organizing seminars, debates etc.
- Digitalization of the campus i.e., admission procedure, circulation of digital notices, encouraging paperless work culture and recycling/ reuse of paper etc.
- Increasing the green cover in and around the campus.
- Use of recycled water for watering plants, trees etc.
- To adopt methods for waste segregation.
- To manage, collect and dispose e-waste appropriately.
- To take action to reduce consumption of plastic in the campus.
- To display waste management instructions/boards at prominent locations in the campus.
- Use of energy efficient lamp where ever possible.
- Use of energy efficient equipment in laboratories/ classrooms/ canteen.
- Restricting the entry of motor vehicles and encourage e-vehicles in the college.
- Promoting the use of public transport.

The college intends to pursue a programme of continuous improvement in its procedures and practices of Green Campus. It shall review the policy on a regular basis to evaluate its continued relevance and to monitor compliance.
